

# Brightcove Video Player

Seamlessly Stream Brightcove Video Content in Your Adobe Connect Sessions

CoSo Cloud eSync's Brightcove Video Player for Adobe Connect seamlessly integrates Brightcove's video platform with Adobe Connect live meetings, enabling users to stream videos into virtual meetings in real-time, display video playlists, and create video annotation, all while improving shared viewing experiences and collaboration.

## KEY FEATURES

Real-time content sharing through video streaming from your Brightcove Media Gallery

Instantly stream, pause, rewind and fast-forward as needed

Build and search through your playlists or utilize pre-existing playlist libraries

Pause the video, draw on a frame, zoom in on features, and save annotation images

Synchronized playback in Adobe Connect recording

Can be accessed on a computer, tablet or mobile

Eliminate editing, converting and uploading videos with 100MB limitation inside Adobe Connect

## ABOUT COSO CLOUD

CoSo Cloud provides secure private-cloud managed services, custom software applications, and expert professional services for high-consequence virtual training and eLearning. Global enterprises and government agency customers rely upon CoSo to complete their solutions when security, compliance, and reliability requirements demand more from virtual meetings and learning management systems. CoSo Cloud is an Adobe Connect and Captivate Prime partner based in Oakland, CA with offices in San Diego, CA and Washington DC.
