

Adobe Connect LMS Integration

Integrate industry-leading Learning Management Systems with the power of Adobe Connect for virtual meetings and classrooms

CoSo's powerful Adobe Connect LTI Integration for your LMS provides a seamless and customizable Adobe Connect experience that empowers your teachers, students, and course administrators.

WE OFFER INTEGRATIONS WITH LEADING LEARNING MANAGEMENT SYSTEMS

KEY BENEFITS

- ✓ Create, manage and launch Adobe Connect meetings seamlessly directly from your LMS
- ✓ With Single Sign-On, instructors and students access sessions via the LMS environment, avoiding the need to remember additional logins or passwords
- ✓ Roster security management to ensure only individuals enrolled in a course can join the class
- ✓ Schedule recurring office hours where students can reserve time slots, receive an automatic calendar reminder upon booking, and enter directly via LMS

KEY FEATURES

STREAMLINED WORKFLOW

Instructors create and manage all courses directly from the LMS UI without the need to go back and forth between Adobe Connect and the LMS to set up classes, as well as review recording and attendance reports. Additionally, for large organizations, teachers can see when time slots are available to avoid overlapping critical courses.

SINGLE SIGN-ON

Courses are accessed and launched from the LMS environment with a single click of a button, launching Adobe Connect seamlessly in the background, so students don't need to remember additional logins.

ROSTER SECURITY MANAGEMENT

Map your LMS course roster to automatically create Adobe Connect users and ensure only individuals registered in a course can access that session, as well as enable participant roles, video rights and audio settings directly from the LMS.

ABOUT COSO CLOUD

CoSo Cloud provides secure private-cloud managed services, custom software applications, and expert professional services for high-consequence virtual training and eLearning. Global enterprises and government agency customers rely upon CoSo to complete their solutions when security, compliance, and reliability requirements demand more from virtual meetings and learning management systems. CoSo Cloud is an Adobe Connect and Captivate Prime partner based in Oakland, CA with offices in San Diego, CA and Washington DC.

Adobe Connect LMS Integration

Integrate industry-leading Learning Management Systems with the power of Adobe Connect for virtual meetings and classrooms

KEY FEATURES:

OFFICE HOURS SCHEDULING

Allow instructors to efficiently host reoccurring office hours across multiple courses that students can reserve, pre-submit questions and automatically receive appointment notifications.

STUDY GROUPS

Instructors can assign and manage assignments for virtual study groups or enable students to schedule and host.

ATTENDANCE REPORTS

Analyze session attendance reports directly within the LMS. Download attendance reports in Excel or PDF and easily access valuable user metrics.

RECORDING MANAGEMENT

Recordings are automatically uploaded to LMS for recording management and viewing, and saved to the storage location of choice, including Kaltura and Google Storage. With direct integration to Kaltura's Video Platform, users have the additional flexibility for video playlists to be displayed, renamed, or deleted from the LMS.

LARGE SEMINAR CLASSROOM

Supports Adobe Connect seminars and can support virtual classrooms with 1000+ simultaneous users.

QUIZ AND SURVEY INTEGRATION

Scores and responses gathered from Adobe Connect Meetings are automatically recorded into your LMS, offering a convenient, error-free management of your gradebook.

REUSE MEETING ROOMS

Adobe Connect meeting rooms can be re-utilized even across platforms, ensuring persistence and consistency.
